

I have my c2license.txt file when I bought Construct 2 years ago. I haven't checked the website anymore since Construct 3 was released... I checked today and the license is still valid. I have not received any documents that give me a notice that the license has ended. I have Construct 3 installed. Is there a way that I can remove the license from Construct 3 and install the license to Construct 2? If there is a way how can I do it? You can remove the Construct 3 license from the Construct 2 website. It will not be automatically removed from your computer after you uninstall Construct 3.
