Is there any way to remove a downloaded file that has been tampered with in some way? I want to download a file via http and have it opened and saved by Android OS on my android device. When i download the file from the internet, it's downloaded to the download folder, and when i try to open it, it just shows the download folder icon and does nothing. In the Downloads Folder, it seems the download has been tampered with because the first few characters of the name of the file are missing. A: You should use Filepicker for managing downloads on Android. Try using the option "Change download location" to change the download location to the SD card. That should solve your problem, or you may try a more advanced solution to download the file right from a web site. Israel: the only democracy that's afraid of the idea of the Palestinians having their own state Why Israelis seem to want to destroy the very notion of Palestine The recent announcement of a two-state solution by the US president, in an address to the United Nations, was greeted with scepticism and derision. There was no mention of a Palestinian state and the main commentary focused on the "annexation" of the West Bank by Israel and the "blockade" that led to a humanitarian crisis for Palestinians. In a Guardian editorial published only a few days before the talk, it was portrayed as a trap by which Israel would somehow be dragged into a peace process. The concept of a two-state solution was first put forward in the late 1990s by the then Israeli prime minister, Ehud Barak, and became a key plank of the Israeli security agenda, particularly following the second intifada. Even after the unsuccessful bid for statehood by the Palestinians at the UN in 2011, the two-state solution remained within the discourse of Israelis as an important and realistic possibility. Israeli government figures such
